

# Process Engineer

Salary: to £40,000 basic + bonus, pension and healthcare

Located: Milton Park, Oxfordshire

Closing date for applications: 28<sup>th</sup> April 2011

LTI Metaltech is a recognised in the precision fabrication and welding of high performance vessels and structures for use in demanding industrial applications.

We are recognised experts in high integrity welded structures capable of withstanding extreme pressure, vacuum and temperature differentials.

To support ongoing growth and development, we now need a Process Engineer to provide expert technical support in defining, developing and implementing robust engineering processes and systems as we expand our business.

The appointee will report to our Engineering Manager. Key responsibilities will include:

- Defining and developing manufacturing processes to achieve maximum output and efficiency.
- Generating and implementing engineering solutions to take products from development to full production.
- Maintaining abreast of technical developments to ensure continuous improvement of our processes and systems.
- Leading the application of detailed process understanding so as to design, develop and optimise manufacturing processes

This exciting opportunity would suit an ambitious Process/Mechanical Engineer with 3+ years' experience or a Diploma-qualified Engineer with 5+ years' experience, ideally in high-spec metals fabrication.

Ideal skills and qualities for this position are:

- Organised and structured
- Good mix of practical and analytical skills
- Quality-focussed
- Problem solver / drive for solutions

If this is the challenge for you, please send your CV with covering letter for the attention of Karen Lumsdale to [enquiries@lti-metaltech.com](mailto:enquiries@lti-metaltech.com).

**Closing date for applications is Thursday, 28<sup>th</sup> April.**

Successful applicants will be invited to attend an LTI Assessment Centre on Monday, 9<sup>th</sup> May at our offices on Milton Park. Shortlisted candidates will be invited back to interview on Thursday, 12<sup>th</sup> May. Please keep these dates free.
